Board Game Description

"In Pandemic, you and your fellow players are members of a disease control team. You must work together to develop cures and prevent disease outbreaks, before 4 deadly diseases contaminate humanity. The players all win or lose together. The goal is to discover cures for all 4 diseases. The players lose if: a worldwide panic happens, a disease spreads too much, or your team runs out of time. Each player has a specific role with special abilities to improve the team's chances..." page one of the rulebook.
